Gamatronic is inviting you all to a **FUN DAY** – a tour of Old and New Jerusalem for a few hours.

Power+ presentation consists of:

Getting to know the Power+ modular UPS product family
Understanding modularity concepts
Getting familiar with technologies involved
UPS, ST/ SW and controller modules from the inside
Power+ controller menus
Installation and maintenance procedures
Troubleshooting

Remark:

- *Schedule can be changed / updated due to register visitors number*
- *Power + immersed course is provided for engineers with experience in UPS only. The purpose is to provide technical skills for technicians, working on the field*
- In the end of the seminar, final exam will take place.*
- *Gamatronic will present technical seminar certificates only for visitor who will stand by exam demands*
- *In the mornings the bus will leave at 08.45, participants that can not reach the bus in due time should arrive to Gamatronic HQ by themselves.*

Please confirm your participation till May 20th .
